DETAILED ACTION

1. Claims 1-11 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art fails to teach or suggest a method for manufacturing a printed wiring board comprising forming a metal layer of nickel (0.08-2 μm), cobalt (0.05-3 μm) or zinc (0.03-2 μm) on the copper foil and irradiating the metal layer with a laser to pattern the metal layer and copper foil simultaneously, wherein the metal layer is removed after the laser drilling. While Gaku (EP 1097806) performs a metal treatment of plating Ni, Co, or Zn on copper foil prior to laser drilling, this metal layer is permanent.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
